

EMS Annual Meeting

European Conference for Applied Meteorology and Climatology 2017

Serving Society with better Weather and Climate Information.

Exhibition & Sponsoring Opportunities

4 - 8 September 2017 | Dublin, Ireland

The EMS Annual Meeting 2017 provides a forum for all actors in the meteorological, climatological and related communities on the science, the applications and the benefits for society.

This year's theme - Serving Society with better Weather and Climate Information - will all be about data: how best to harness the wealth of data now available to ensure the highest-quality support for users' decision-making - a key challenge for meteorology and related communities today.

51 Sessions are organised in three programme streams:

- Engagement with Society (ES)
- Operational Systems and Applications (OSA)
- Understanding Weather & Climate Processes (UP)

Exhibiting at the EMS2017 will provide conference participants with valuable information on your products and services.

CONFERENCE ORGANISATION

The conference is organised in five parallel sessions during each day, with half-hour coffee breaks in the morning and the afternoon; the poster sessions with plenty of opportunities for discussion are held in the conference foyers at the end of each day. Plenary keynote talks are given on Tuesday, Wednesday and Thursday morning from 9:00 to 9:30. These cover new and debated topics related to each of the three programme streams.

EMS ANNUAL MEETING PARTICIPANTS

We expect some 600 participants from Europe, but also beyond. The majority of the EMS Annual Meeting participants come from universities, national meteorological services, and public or governmental research institutions. International organisations are well represented and some four percent come from private service providers. One third of participants are students or in the very early stages of their career; some 35% are female.

EXHIBITING at the EMS2017 will provide conference participants with valuable information on your products and services and provide you with the opportunity to scout young researchers looking for an international career. We would like you to consider sponsoring our conference. This event is an excellent opportunity to meet with other key players in the meteorological and climatological communities.

ICEBREAKER (1)	€ 5000
-----------------------	--------

Your company logo on the buffet and bar tables, material provided by sponsor; announcement during the Opening.

POSTER SESSION (3)	€ 2000
---------------------------	--------

Company logo on each drinks/snacks table, material provided by sponsor.
